

The ULF Advantage *Public versus Private*

The debate over what's better is an ongoing discussion in the food distributor business. At Upper Lakes Foods, we've made a long-term commitment dating back to 1967 to remain a private, family owned and operated food distributor.

This decision is just one of many that give us and our customers a competitive advantage.

How does this decision impact you? It means:

Real-time Decisions: Staff holds the ability to make decisions that impact your bottom line on your timeline versus a public board's meeting timeline.

More Flexibility: We are committed to being as flexible as possible to ensure you meet your goals. This is just one more advantage of joining the ULF Family.

Less Bureaucracy: As a private company, we operate on a lean staff, removing the extra layers of bureaucracy that can be frustrating and divert your attention from what matters most—your bottom line.

Guaranteed Success: The bottom line is the ULF Family genuinely believes our success is measured by your success. Otherwise we wouldn't be here today or tomorrow.
